

Jochen Baumann - Project Manager

Dipl.-Ing. Aeronautics and Space Engineering

Responsibilities at qonqave

- Engineering
 - Development of Innovative Pump Concepts
 - Specification according to Market Requirements
 - Design Calculation
 - Computer Aided Design (CAD) and Assembly
- Testing
 - Setting up Testing Schedules
 - Planning of Testing Benches
 - Testing from Base Function to Endurance Tests
 - Interpreting of Results and Deriving Optimizations

Cornerstones of professional experience

2011-2013 Institut für Flugzeugbau, Universität Stuttgart

Research Assistant

- Development of draping technologies within the EU funded project “TC2-EFRE RTM Inno-Hoch”
- Material testing of composite materials according to both standardised and customer specific tests
- Small series manufacturing of a two-armed handling device made of CFRP

2004-2011 Degree Programme in Aeronautics and Space Engineering, Universität Stuttgart

- Aircraft and Lightweight Design
- Turbo Engines and Aircraft Propulsion Systems
- Carbon Composites e.V. Trainee Programme
